

The following is in response to the FEC request in reference :
amended year end report 10/1/2009 and reference:
amended 12 day pre-primary report 01/01/2010-01/13/2010.

During this time the committee was in the process of transferring responsibilities to a new committee. During this process the committee inadvertently failed to report receipts due to miscommunication during the exchange. Both the new committee and prior committee inadvertently assume they had each filed the reports.

Immediately upon discovering this omission the committee immediately amended its reports.
